

### **Mary, Queen of Angels**

The window closest to the altar on the left side shows Mary as Queen of Angels, with an angel beneath her feet and two above her head. These two on top are shown in nearly the same position as the angels on the Ark of the Covenant, demonstrating that Mary is the new Ark of the Covenant. The original Ark contained the tablets with the Ten Commandments, the staff of Aaron the priest, and manna from Heaven. Likewise, Mary carried Christ, who is the Word of God, the great High Priest, and the Bread of Life. The angels in this window also hold a crown, to show that Mary is their Queen as well.
