

Ezekiel

The biblical verse at the bottom comes from Ezekiel 1:1 and underscores the prophet's authority. Behind the prophet is a depiction of a watchtower which plays an important role in the Book of Ezekiel as symbolic of the role of the prophet being a person watching for the action of God in the world. At the top of the window is the Eye of Providence, again emphasizing the authority of the prophets as being part of the all-seeing eye of God in the world and divine providence.
